The stimulus material for the 2016 Dance ATAR course written examination has been distributed to schools. A DVD and a CD were provided to each teacher of the course and each candidate enrolled to sit the examination.

The DVD contains a copy of the stimulus material *Structure and Sadness* and the CD contains the 'Support document for stimulus material *Structure and Sadness* by Lucy Guerin Inc'. Candidates will be required to make reference to the stimulus material in at least half of the questions in Section One of the written examination.

The DVD will **not** be played during the examination. However, the examination paper will include a Source booklet that contains images from the stimulus material as prompts or reminders of the stimulus DVD.
